OK

Barefoot Truth

Break away from the day to day direction
Face a world with the best intentions
Well are ya frozen still when the world faces you
I can?t hide the truth

Cause we don?t have long
And I know
Only the road I?m on I?m gone who?s coming with me
Cause there isn?t any other way
Feel it?s time to close my eyes and see what I?ve been missin?
Somehow it feels okay

Just like a captain who goes down with his boat
Or the brave soilder who refused to leave his post
When the world chooses you will you stand and face your fear
So long ? here?s to valiant

Cause we don?t have long
And I know
Only the road I?m on I?m gone who?s coming with me
Cause there isn?t any other way
Feel it?s time to close my eyes and see what I?ve been missin?
Somehow it feels okay

Could I have fought the forces
Are there such thing as choices
Or has it been there all along ? must we just carry on
Well I hope it takes me home
Where my seed was sewn

Only the road I?m on I?m gone who?s coming with me
There isn?t any other way
I think it?s time to close my eyes and see what I?ve been missin?
Somehow it feels okay
