

Blue Skies

MattyB

I'll meet you under blue skies, blue skies

We can share the sunshine, sunshine

We going up up, it's going down

We turning up up, it's going down

I'll meet you under blue skies, blue skies

We can share the sunshine, sunshine

We going up up, it's going down

We turning up up, it's going down under blue skies Sun is blazing, feels amazing, memories is what we making

Hearts are racing, girls we chasing, soaking up these summer rays and

Music's bumping, fists are pumping, laughing and we keep it coming

living like it's now or never and the moments all or nothing

You ain't gotta have a lot of money in your pocket

You can show up in whatever like whatever I'mma rock it

You don't need no invitation, we ain't got no special tickets

Cause we're all just normal people

and we hope that you can kick it under I'll meet you under blue skies, blue skies

We can share the sunshine, sunshine

We going up up, it's going down

We turning up up, it's going down

I'll meet you under blue skies, blue skies

We can share the sunshine, sunshine

We going up up, it's going down

We turning up up, it's going down under blue skies Switch up my rhyme, I gotta be cool for the summer time

Me and my fellas at the lake house with the shades out

tryna lay out... cause the babes out

Jet skis and boats, burgers and cokes

Holding competitions with my friends on who can be lazy the most

ain't got a - care in the world cause we just keep laughing and hollering and we'll

forget about the time until our parents start calling

cause it's them summer days like this where all our problems can melt

and we don't worry 'bout tomorrow, let it take care of itself under I'll meet you under blue skies, blue skies

We can share the sunshine, sunshine

We going up up, it's going down

We turning up up, it's going down

I'll meet you under blue skies, blue skies

We can share the sunshine, sunshine

We going up up, it's going down

We turning up up, it's going down under blue skies crazy hair, never cared what them other people say

I'm just tryna have a little fun each and every day

I'm just tryna say, tryna say what's been on my mind
I'm just tryna live everyday like it's summertime
crazy hair, never cared what them other people do
I just hoping my i can spend, spend some time with you
I think maybe we, maybe we should just live our life
If you wanna know where I'll be, then I'll meet you under blue skies
