

Fire

Krystal Meyers

You make light from dark, illuminate my heart
It started with a spark and now I'm consumed
I know that it's your will, so I'm gonna shine until
I'm a city on a hill and they can see You And know you
And know You inside You set me, you lit me, I'm on fire
What a beautiful sight to see, I'm on fire
Until my light is burning bright
I'm gonna lift your name and let this flame get higher, fire Let your fire feed on all my disbelief
'Cause You are all I need, you're contagious
Like a blaze I can't contain, it never fades away
It's sunshine through the rain, that's what Your love is And I know
And I know inside You set me, you lit me, I'm on fire
What a beautiful sight to see, I'm on fire
Until my light is burning bright
I'm gonna lift your name and let this flame get higher, fire I wanna show 'em you're the only one
Show 'em you're the only one
You're the only reason why I'm on fire You set me, you lit me, I'm on fire
What a beautiful sight to see, I'm on fire
Until my light is burning bright
I'm gonna lift your name and let this flame get higher, fire You set me, you lit me, I'm on fire
What a beautiful sight to see, I'm on fire
Until my light is burning bright
I'm gonna lift Your name and let this flame get higher, fire
