I Believe

Elliot Minor

It shimmers in the dark, yet this ones not a trophy
It's worth so much more, there's no glorious flaw
It's the best that I've ever seenLovers cannot lie, when it gets you feeling alive
Brings your colour out, spreading word about
That I'll kill before I trySo please hand me my cover and my soul
I'll throw away every piece I ownCause I believe if you need me too
I'll risk my neck, I'll go down with you
There's no line to what I would do
Can I be your life cause I need youA moving spectacle and in the beauty of it all
It's so much to pull that they made no law
It's just what the world has been waiting for
Somewhere down the line, more spirit than in mind
We'll carry on, forever gone cause we left everything behindSo please hand me my cover and my soul
I'll throw away every piece I ownCause I believe if you need me too
I'll risk my neck, I'll go down with you
There's no line to what I would do
Can I be your life cause I need youCause I believe if you need me too
I'll risk my neck, I'll go down with youSo please hand me my cover and my soul
I'll throw away every piece I ownCause I believe if you need me too
I'll risk my neck, I'll go down with you
There's no line to what I would do
Can I be your life cause I need youCan I be your life?Can I be your life cause I need you
