Playground

Mikaila

Come into my playground, no one else can see
Baby, let me show you
Come into my playgroundSo you say you wanna feel my love
That you think about it so much
The thought just makes you high
So you say you're gonna give it up
If you wanna taste my love
Better know what I wantAnd if you wanna get the best of me, baby
You got to start playing by the rulesCome into my playground, no one else can see
Baby, let me show you how it could be
So join me baby, close your eyes
Step into my playground where every thing's alrightSay you wanna be in love with me, baby
Say you wanna be down with me, baby
Fantasize about what I'm gonna do
For you, for you, for youGonna take you to my private world, baby
Gonna show you where the keys are hidden, baby
Fantasize about what I'm gonna do
For you, for you, for youNow you tell me everything is cool
That there's no me without you
Well, that's just not enough
Need a guy that's gonna prove
Understands what he's gotta do
And better know what I wantAnd if you wanna get the best of me, baby
Gotta start playing by the rulesCome into my playground, no one else can see
Baby, let me show you how it could be
So join me baby, close your eyes
Step into my playground where every thing's alrightCome into my playground, no one else can see
Baby, let me show you how it could be
So join me baby, close your eyes
Step into my playground where every thing's alrightSay you wanna be in love with me, baby
Say you wanna be down with me, baby
Fantasize about what I'm gonna do
For you, for you, for youGonna take you to my private world, baby
Gonna show you where the keys are hidden, baby
Fantasize about what I'm gonna do
For you, for you, for youMy playground, come into my playgroundCome into my playground, no one else can see
Baby, let me show you how it could be
So join me baby, close your eyes

Step into my playground where every thing's alrightCome into my playground, no one else can see
Baby, let me show you how it could be
So join me baby, close your eyes
Step into my playground where every thing's alrightCome into my playground, no one else can see
Baby, let me show you how it could be
So join me baby, close your eyes
Step into my playground where every thing's
