

The Long Way Around

Linda Ronstadt

It's a cinch that I've been wrong
And it's clear, it's not been long
Since I was hard on you But now a time has come
When yesterday don't mean nothin'
Now I'm in love with you
And you've taken me the long way around Take a look how young we are
A month has changed the moon and the stars
Changing the things we do You've been lookin' for somethin' strong
When other things don't mean nothin'
Now I'm in love with you
And you've taken me the long way around Well, I can't see beyond the doubt that's in your eye
It's on the outskirts of my fading alibi It's a cinch that I've been wrong
And it's clear it's not been long
Since I was hard on you But now a time has come
When yesterday don't mean nothin'
Now I'm in love with you
And you've taken me the long way around Now I'm in love with you
And you've taken me the long way around
