Men with suits and ties, sittin callin shots

Men with suits and ties, sit-sit

Men with suits and ties, sittin callin shots

Shots called, shots from a chair

With Hummers comin at night, with dark light

More drama lookin through the sunroof, at a stealth bomber

Hummers comin at night, with dark light

More drama lookin through the sunroof, at a stealth bomber

With heavy equipment, journalists ask me questions with armor

Questions with, questions with armor

No accomplishment of direction, no choice to sleep

With no selective music pumpin

Jumpin

Lookin for the perfect world

Brutal combat, I bomb back, work on your body, and watch Star Trek

From Costa Rica to Boston

My pens are painkillers and Prozacs

Pens are painkillers and Prozacs

Bomb back {\*scratched\*} I bomb back

Pens are painkillers and Prozacs

It's flammable, dangerous
