

Someday

[Codie Prevost](#)

Breaking like an ocean wave
Hoping just to reach the shore
Praying for the light of day
To show the way out of this storm You been tossed about lost and found
Lifted up just to be let down But someday love is gonna take you in it's arms
Hold you heal your wounded heart
Your fate is finally gonna lead you through the dark
You'll find everything in time
I swear it'll be okay
Hope you know your'e on your way
To Someday Love has been a painful word
For what you give and don't get back
But when you get what you deserve
You'll forever drown you past And the sun will shine light up your life
It's hard to believe it now But someday love is gonna take you in it's arms
Hold you heal your wounded heart
Your fate is finally gonna lead you through the dark
You'll find everything in time
I swear it'll be okay
Hope you know you're on your way
To Someday
