

Moth

People In Planes

Moth on the wall you never fall
You just disappear from view
You don't even have to try
To make a nuisance of yourself You deny all knowledge
That anything ever happened
Did it ever happen So where did you go?
Come back and finish me
But you're just a moth so
Make a nuisance of, yourself Someday you will find
You can't stand yourself
You'll radiate your self-hate Are you aware of the smoke?
It's getting in my face
I dedicate this song to you
For choking up my life Oh sheriff
You're pregnant
So who'll stop the killing spree
When you
Take your
Maternity leave So where did you go?
Come back and finish me
But you're just a moth so
Make a nuisance of, yourself Someday you will find
You can't stand yourself
You'll radiate your self-hate
