

Reasons

Brentley

Verse I:

So many reasons why I stick by you
It's kinda funny how I'm stuck on you
They way you make me feel
(Can't believe this feelin that I'm havin)
Is just so Real
I pass yo picture on my wall
(Lookin at the clock)
Wasting time waiting on you call
(It to good to be true)
I can tell from just the way I look at you

Hook:

The Reason why
I think I'm with you
Just the little things you do babe
Said the reasons why I think
Want you and need you

Verse II

Never been the one to play with love
So how did we end up play this game?
(this game)
It funny that you mention that
Cause I find that I'm asking myself the same
(the same)
Maybe this is just pretend
cause I don't wanna play the fool again
With this love I found babe let me break it down
(V-Bridge)
When I look into your eye
I see a bet of heaven in you
Everytime you smile at me
It's brighter than the sun shining through
And when there no one there for me
I know your love is guaranteed
And maybe that just one of many reasons why
