

Hello Hello

SR-71

Hello hello
I bring you letters from the man you used to know
Give in let go
To the words that made you feel you weren't alone And now it's funny how we find out
Time can solve the mystery
But love is only temporary Hello hello
The smile your face is just for show
Inside you're screaming let me go Hello hello
Loneliness doesn't make a sound
'Til I head back underground Hello hello
I bring you pictures from the man you used to know
Give in let go
To the images that made you feel at home And now it's funny how we find out
How age can change a man
Confused but now I understand Hello hello
Your swimming faster then you know
But you can't fight the under toe Hello hello
Loneliness doesn't make a sound
'Til I head back underground And now it's funny how we find out
Time can solve the mystery
But is love is only Hello hello
The smile on your face is just for show
Inside your screaming let me go Hello hello
You're swimming faster then you know
But you can't fight the under toe Hello hello
The smile of your face is just for show
Inside your screaming let me go Hello hello
Maybe I'll just say goodbye
