

# Endless Torment

## Depraved Plague

Stuck inside this eternal pit  
Can't escape however you try  
Walls are closing in on me  
Making it so hard to breathe

Stuck inside this pit of life  
Can't escape it however you try

Stuck inside this eternal pit  
Can't escape however you try  
Walls are closing in on me  
Making it so hard to breathe

Endless. Torment. Endless. Torture. Endless. Torment. Endless. Torture.

This is what life has to give  
Everything is all so hard  
Living is your only pain  
But this is what you crave

Taking all that you are given  
Putting yourself in control  
Living this life as you dictate  
Making them mirror you  
Jumping over all the cracks  
Throwing them out your way  
Walking strong through the streets  
Knowing you are king
