

C'mon

Little Big Town

C'mon, you're talking about it around the house
C'mon, uh, baby I love to hear your mouth
We've had a conversation, but you know that's just a fraction
What you wanna say about me
Is I'm all talk, and no actionC'mon, you hear me talking 'round the house
C'mon, you know you love to hear my mouth
Yeah, we've had a conversation, but you know that's just a fraction
Are you gonna let me say it?
Oh, you're all talk and no actionAnything you want, put it on your lips
Life is like a store, and it's alright
Put it in your car, and I'm the one that would gladly pay
Throwing the giggles, it's your night
I can feel it on your mind
I can feel it on your mind
I can feel it, it's alright
Can you feel it? It's our nightC'mon, you're talking about it around the house
C'mon, uh, baby I love to hear your mouth
We've had a conversation, but you know that's just a fraction
What you wanna say about me
Is I'm all talk, and no actionC'mon, you hear me talking 'round the house
C'mon, you know you love to hear my mouth
Yeah, we've had a conversation, but you know that's just a fraction
Are you gonna let me say it?
Oh, you're all talk and no actionOh, yeah
C'mon girl
Oh oh
C'mon let's go
Let's goC'mon let's hook it out
Wanna tell me what the fuzz is about?
Let's get on every rock in the house
Too late to walk it out
I'm gonna give you what you talk about
Baby till the ?? run out
I'm gonna show you what I'm all about
'Cause it's our nightC'mon, you're talking about it around the house
C'mon, uh, baby I love to hear your mouth
We've had a conversation, but you know that's just a fraction
What you wanna say about me
Is I'm all talk, and no actionC'mon, you hear me talking 'round the house

C'mon, you know you love to hear my mouth
Yeah, we've had a conversation, but you know that's just a fraction
Are you gonna let me say it?
Oh, you're all talk and no actionI can feel it on your mind
I can feel it on your mind
I can feel it, it's alright
Can you feel it? It's our night
