

Finally Found a Home

Huey Lewis & The News

It used to make me so fed up
People always asking me
What will you be when you grow up?
You're gonna need security Spent a little time in school
Wishing, I was somewhere else
Having fun and acting cool
I just want to be myself And I finally found a home
Where I'll never be alone
Right here, where I belong
And I finally found a home
Here, in a song Thought, I'd finally found the one
Together we would always be
Funny, how things come undone
Love's not what it's supposed to be Now everybody needs a place
Even if it's on a stage
Everybody needs a place
Something to help them turn the page And I finally found a home
Where I'll never be alone
Right here, where I belong
And I finally found a home
Here, in a song It used to make me so fed up
People always asking me
What are you now that you've grown up?
Exactly, what I wanna be Yeah, I finally found a home
Where I'll never be alone
Right here, where I belong
And I finally found a home And I finally found a home
I don't know where
And I finally found a home
If you want me I'll be here And I finally found a home
And I finally found a home
That will really solve
And I finally found a home
And I finally found a home
And I finally found a home
