

# Freedom Ride

## Milagro Saints

Wish you were in my bed  
Box of tissues there are instead  
And the only thing in my head  
What did she do right why  
I know we aint together  
But now I know it dont get better than you  
But you dont feel the same about me  
What did she do right oh  
We went on a freedom ride  
To see whats on the other side  
And promised we would reunite  
somebody changed your mind  
Now youre in love  
Unfinished business  
Thought we were built to win this  
And now you wanna end it  
What didnt I do right  
We were supposed to just taste it  
I never thought youd get wasted  
And I was foolishly waiting  
What didnt I do right

chorus

We went on a freedom ride  
To see whats on the other side  
And promised we would reunite  
But somebody changed your mind  
Now you are in love  
I think she will understand  
If you decide to try again  
Or maybe we were better off  
Not knowing what exists  
Not taking this risk  
Let us reverse just reverse  
Oh I wish we never would boarded that train

chorus

We went on a freedom ride  
To see whats on the other side  
And promised we would reunite

But somebody changed your mind  
Now you are in love  
Now you are in love yea  
Now you are in love yea  
Somebody changed your mind
