

# Parade of the Dead

## Black Label Society

Exterminate the laws of old  
The sacred past begins to roll  
Oh oh the denying of your death  
Oh oh the machines must be fed  
Parade of the dead  
Parade of the deadThe asylum marches on  
The men that kill whats left is gone  
Oh oh the denying of your death  
Oh oh the machines must be fed  
Parade of the dead  
Parade of the dead  
The machines must be fedRevenge, and retaliation  
The shadow of man's war has been killedThe masses in the grave  
I bet that can't be saved  
Oh oh the denying of your death  
Oh oh the machines must be fed  
Parade of the dead  
Parade of the dead
