Freedom Island

The Free

Darling this life thing is riveting
Ring on a star, I call her Saturn
Everybody love, Dress in Pattern
Too much nooka nooka, See me mad hatter.

Fresh food that don't give no tumor
First time or three time loser.
Must create that's the only rule
Be original, Produce it.

La-Ra-Di-Da-Day, Its a movement.
They gonna hate from blueprint to ruin
Monkey Monkey, Need evolution
Lord forgive them, For they blind to the future.

Us we seen it rising phoenix
In a child his style so bohemian
He tell me run run, From oblivion
To Freedom Island, Join the resilience

Pre-hook (x1)

Baby Fly, Fly With I
Close your eyes/Kiss the sky
Baby Fly/ Fly with I
We are now landing on Freedom Island.

Hook (x2)

Freedom Island
We nah living no more/We just Vibing
Freedom Island.
Straight Vibing / On Freedom Island.

We light a fire on the shores of the island
So if your shipwrecked know that your invited.
Genuine vibes of mingling tribes
We fear no differences, On them we thrive

When you arrive, Dispose extravaganzas.

A mans ego is the greatest propaganda.
Keep you blind to the freedom of the land.
Your own thoughts be reciting your Mirinda.

So dance dance, If you like dancing.
With the company of free lancers.
Who no longer believe their ancestors.
On a quest for real things and answers

So take a minute feel and observe.
The child in me that my art has preserved
And understand that my stance as a rebel
Comes from love base and treble.

Pre-hook (x1)

Baby Fly, Fly With I
Close your eyes/Kiss the sky
Baby Fly/ Fly with I
We are now landing on Freedom Island.

Hook (x2)

Freedom Island
We nah living no more/We just Vibing
Freedom Island.
Straight Vibing / On Freedom Island.

Some of them destined for survival
Lost souls them dim down the lighting
cross roads unite and divide them
We are the people of freedom island (x2)

Pre-hook (x1)

Baby Fly, Fly With I
Close your eyes/Kiss the sky
Baby Fly/ Fly with I
We are now landing on Freedom Island.

Freedom Island
We nah living no more/We just Vibing
Freedom Island.
