

End Up Like This

Jurassic 5

Yeah
Hey, yo, we used to be young, dumb, full o' cum
Bubble yum, bubble gum, with no funds
But we still had fun
Don't worry, be happy, that's what we was
We was family, caring for loved ones
Blood relatives, first and second cousins
Brothers all from the same mother
Now we act like we don't know each other
We used to play with toy guns
Now we bust real ones
Shoot 'em up Kill Bill style and fashion
Hey, yo, what happened?
Hey, yo, what happened?
Da da da
How did we end up like this?
Da da da
How did we end up like this?
Da da da
How did we end up like this?
Da da da
How did we end up like this?
Hey, yo, the vision that I'm seein' ain't the same no more
We used to tell the girls we love 'em, now we calling 'em whores
Summers of the past was a blast when we cooked out
But now we grab the phone, sit alone and order take out
Kids playin' outside, yellin' out names
Now the fun and excitement's in the video games
Brothers used to speak "What's up," "How you"
Now it's "Homie", "Who the heck" and "Why he lookin' at you?"
It really blows my mind how we changed our direction
As the years go by, I gotta ask this question
Da da da
How did we end up like this?
Da da da
How did we end up like this?
Da da da
How did we end up like this?
Da da da

How did we end up like this?
We-a dire need but what the empire need
When you lyin' to me, it seems so fine to me
I got a glass eye that reflects the fast fly
Then my acne [Incomprehensible] the latchkey cool
I used to want to hit the streets to hide my fault

The life at the [Incomprehensible] or the pain I've caused
The damage I laid was covered up with praise
'Cause, Momma, did you know that I had changed my ways?
But don't judge me, harass my clique
We only doin' this, 'cause the neighborhood permits
So try to explain, just one thing
What if we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Yeah, I'm runnin' muddy and graffiti understudy
To switchin' to musician and children across the country
Trips to Cuba and tours with Santana
Help me not to flip this statement and endure these bad manners, man

They ain't chasin' but came to main

'Cause inducing caine is a beast

To sustain your brain pressure

Tryin' not to see the fact that you da man

Leave the plan [Incomprehensible]

'Cause your choices affect your band members in the air, shit

Later for business, what happened to friendship?

The rest is just nonsense

My natural response is to just to roll up our fists and ask

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?

Da da da

How did we end up like this?
