

# Leave Me Alone

## FIDLAR

I'm stupid  
So stupid  
And a hopeless romantic  
I guess I'm damaged  
but I'll manage  
In my room all by myself being dramatic Alright, I'm lazy  
and fucking crazy  
and you think I'm putting on some kind of front  
but this is me being me And you know what's sick?  
I kinda like it  
but nobody I know really lives like this  
but I love it  
And I'll say anything you want  
because I'm leaving in the morning  
And maybe I should try and fall in love  
but I guess it's so boring  
Too late to die young and too young to burn out  
or I could fade away and just say that I'm happy  
Now leave me alone  
Leave me alone I'm stupid  
So stupid  
and nothing in the world's gonna change my mind  
So you can suck it  
and I'm perfect  
and I'm so worth it  
I'm pretty  
Oh so pretty  
Look at me  
Do you want it?  
I'll say anything you want  
because I'm leaving in the morning  
and maybe I should fall in love  
but that just seems so boring  
Too late to die young and too young to burn out  
or I could fade away and just say that I'm happy  
Now leave me alone
