

# Drive You Home

[Sam Feldt](#)

All of my strength is gone  
I don't know what you want I was never looking for trouble  
I was only following you down  
I remember when we were younger  
Going round and round If I hold you now...  
I could almost not remember... If I hold you now... I was never looking for trouble  
I was only following the sound  
I remember when I was someone  
But it's different now Leave a little light on the radar  
I can never know how far I'll go  
I am just in love with the feeling  
Of losing control If I hold you now...  
I could almost not remember... If I hold you now...  
I could almost drive home...  
If I stay a while...  
I could almost not remember...
