

# Ode To You (Ethan Jones Session)

## Michael Kiwanuka

I didn't mean at your feelings  
I just needed a little time  
I know I didn't say I mean it  
I just needed a little time  
And I know it's something we can talk about  
Oh my friend I'll never leave you again  
And I know it's something I was wrong about  
Oh my friend I'll never leave you again  
You came around when I was lonely  
You came around just in time  
That's something good to show me  
You showed me just in time  
You told me something good to talk about  
Oh my friend you know you save me again  
You told me something I was wrong about  
Oh my friend you know I'll be here again  
There'll be day when I'm lost  
But I know how it costs to leave our friends behind  
Now I'm gonna be free  
And you will be there with me  
There'll be day when I'm lost  
But I know how it costs to leave our friends behind  
Now I'm gonna be free  
And you will be there with me again  
I didn't mean at your feelings  
I just needed a little time
