

Lovely 2 C U

Goldfrapp

A wonderful place to be, the birds are singing
The dreams that are sent to me, everyone's waving
But there's no noises, the smell of your skin
The glittering lights of hell, I'm missing sin
La lovely 2 C U, la lovely 2 C U

I wanna get out of here, inhale your sky
A beautiful place to be, so I don't know why
They're selling us something I don't need
They're selling us something babe, you shouldn't believe
