Deep Froth

Shag Rock

You choose what I drink
And I pour it down the sink
Cause I'm drunk off you
And I get my kicks
Not from the hoochie coochie
But from letting go of our knees
In your heart dreams girl please
It's not over 'till the music stops

Love in December, it gives me deep froth baby
Something to remember, you'll feel the deep froth baby
Love in December, it gives me deep froth baby
Something to remember, you'll feel the deep froth baby

And the chorus fades
As does the grayscale shades
Of time with you
And colour returns
And brings the tragic magic
As we're letting go of our knees
And our cheap thrills girl you please
It's not over 'till the slow dance stops

Love in December, it gives me deep froth baby
Something to remember, you'll feel the deep froth baby
Love in December, it gives me deep froth baby
Something to remember, you'll feel the deep froth baby
