This Time

Showoff

What you say is this way every time that you need me.
Sometimes it seems that you only want things that I do.
I need to show myself everything that I did before
I don't want anything at all, now your six feet tall.
This time I think you've gone too far
Sometimes I feel locked in a jar
This time I'll wish upon a star
This time I think you've gone too-
What you say is this way every time that you need me
My head is still spinning, I'm on top but I'm not winning
I need to show myself everything that I did before
I don't want anything at all, now your six feet tall.
