Light in the Cave

I See Stars

It's easy to find the answer
It's always been there I'm always running
To the back of my mind I gather
Thoughts and shades I haven't shown yet
Oh how the tables turn
I had my mind made up like a story
That you knew the ending of
I always knew that you were pretending
Yeah I always knew that you were pretendingJust hold on me and i'll wipe away the marks they drawn on you
Here it's you and me cause II'm holding on by the tips of my fingers
I'm not afraid of the fall
The only thought that the silence triggers
Is the time I went wrong
Oh I know I made a fool of us all
Oh I'm sorry so sorry
I'm not sorry at allI'm always running always running
It's easy to find the answers
It's always been there
It's always been thereOh how the tables turn
I had my mind made up like a story
That you knew the ending of
Yeah I always knew that you were pretendingI'm holding on by the tips of my fingers
I'm not afraid of the fall
The only thought that the silence triggers
Is the time I went wrong
Oh I know I made a fool of us all
Oh I'm sorry so sorry
I'm not sorry at all
