

# Life Is Too Short

## Caliban

Dead end and no way back  
Walls came crashing down on me  
Whatever I try, whatever I do  
My mind will go insane Change is the headline and I am reborn  
And all the crying, all the mourning is gone  
I woke up with a new view of life  
I don't know what has happened to the past [Chorus]  
Life, life is too short to think all through  
Life, life is too short to waste it all So listen to your heart  
And help your dreams to come true Life is too short Too many dreams kept in the dark  
Too many dreams kept in the dark  
Too many wishes are blown away for nothing A new time, a new chance, I am a rising star  
I am back, I will fight, I will love again  
I woke up with a new view of life  
I don't know what has happened to the past [Chorus] Life is too short
