One World

Kelly Osbourne

One word breaks the code of silence,
Silence tells me all I need to know.
One Word,
One Word, tells me everything I need to know.One world driven in to madness,
Madness driven by the depths below.
One Word,
One Word, tells me everything I need to know[chorus]
It's not the way that I want it,
It's just the way that I need it.
Day after day
It's not the way that I want it,
It's just the way that I need it.
Day after dayOne lie tells a thousand stories,
The greatest stories that were ever told.
One Lie,
One Lie, tells the greatest stories ever told.One man can predict the future,
a future journey in to outer space.
One Man,
One Man, a future journey in to outer space.[chorus 2x][French talking][chorus 2x]
