

# Bombs Away

## Face to Face

It's time for an intervention  
It's time for a little truth  
It's time for a revolution  
Grab a torch gonna light the fuse  
Had enough of the desperation  
Had enough of the crooked views  
Had enough and it's time for action  
3 2 1 no time to looseCuz this is time you gotta make your stand  
Falls away let the casualties beat downWe are the ones for your consideration  
We are the ones to be to recognized  
We are the ones for your procrastination  
Time now for us to get organized  
Fall in line, revolutionary  
Fall in line gonna win the war  
Fall in line you are another number  
Call the war!  
1 2 3 4[Chorus]  
This time you gotta make your stand  
Falls away let the casualties beat down  
This time you gotta make your stand  
Falls away let the casualties beat downIt's time for an intervention  
It's time for a little truth  
It's time for a revolution  
Grab a torch gonna light the fuse  
Had enough of the desperation  
Had enough of the crooked views  
Had enough and it's time for action  
3 2 1 no time to loose[Chorus]  
This time you gotta make your stand  
Falls away let the casualties beat down  
This time you gotta make your stand  
Falls away let the casualties beat down[Chorus]  
This time you gotta make your stand  
Falls away let the casualties beat down  
This time you gotta make your stand  
Falls away let the casualties beat down
