# Drunk Logic

## Walker Lukens

All my friends
Have steady lovers
All my friends
Have gone home ealry

And you
You are not my friend
You won't be going home if
I can help you
Ohh, let me help you

All my friends
Have routine lives
So I tell myself
Oh, to sleep at night

And you
Oh, you are not routine
And I don't like my friends
And ohhhh
Darling can you hep me?
Darling, help me

All my friends
Can't stop whispering
About what I do
Oh, and what I can

And you
Well there's things I do
They don't know I do
And I want to show you
Oh, let me show you

---
