

Final Heartbreak

E-Rotic

Don't you cry, baby blue
Didn't want to be a dream
Just a kiss in the dark
It will break your heart in twoJust a girl, just the night
Come on, babe, that's all right
And so my sweet, don't you cry
Don't you argue, don't you fightWhat's so bad? What's so mean?
Didn't want to spoil your dream
Baby, don't you run away
Never change the way we didWhat's a kiss? What's a night?
Well, I'm sorry if it's right
You and me, that's okay
Let's go fighting for the lightThe final heartbreak killed my dream
Feeling the pain that made me scream
You loved me, so it seemed
But your love was too extremeThe final heartbreak made me cry
Bridges are burning in the night
You made my feelings die
By that achin' pain inside
So, goodbyeBaby, please, take my hand
Just forgive me if you can
It's so human as you know
And what's more, I'm just a manI won't see her again
I don't even know her name
Don't you say it's a shame
Loving you is not the sameWhat's so bad? What's so mean?
Didn't want to spoil your dream
Baby, don't you run away
Never change the way we didWhat's a kiss? What's a night?
Well, I'm sorry if it's right
You and me, that's okay
Let's go fighting for the lightThe final heartbreak killed my dream
Feeling the pain that made me scream
You love me, so it seemed
But your love was too extremeThe final heartbreak made me cry
Bridges are burning in the night
You made my feelings die
By that achin' pain inside
So, goodbyeDon't you cry, baby blue

Didn't want to be a dream
Just a kiss in the dark
It will break your heart in twoJust a girl, just the night
Come on, babe, that's all right
And so my sweet, don't you cry
Don't you argue, don't you fightWhat's so bad? What's so mean?
Didn't want to spoil your dream
Baby, don't you run away
Never change the way we didWhat's a kiss? What's a night?
Well, I'm sorry if it's right
You and me, that's okay
Let's go fighting for the lightThe final heartbreak killed my dream
Feeling the pain that made me scream
You love me, so it seemed
But your love was too extremeThe final heartbreak made me cry
Bridges are burning in the night
You made my feelings die
By that achin' pain inside
So, goodbye
