

We Don't Have to Hold Out

[Anne Murray](#)

Opportunities so few and far between
Chance for real love so hard to believe in
Every broken heart needs some time for mending
But if we wait too long this moment may be gone. We don't have to hold out any longer
Oh it feels like this is the moment
We don't have to stay out in the cold any more
Let's just take this chance and never let it go. All the memories, the good and bad, keep coming back
The past will never leave as long as we let it last
But we could let it go pack up all the make-believe
Send it on its way and think about today. We don't have to hold out any longer
Oh, it feels like this is the moment
We don't have to stay out in the cold any more
Let's just take this chance and never let it go. Now we could hide away
Live our lives alone
Thinking it's the only way
But I can't let it go on any more. We don't have to hold out any longer
Oh it feels like this is the moment
We don't have to stay out in the cold any more
Let's just take this chance and never let it go. Let's just take this chance and never let it go.
