

# It's Ok Now

## Bronze Radio Return

Hold it down  
Don't let it go and slip through your fingers now  
And it's today's routine  
That pushes us around So grin and bear it  
'Cause nothing's gonna change if we always wear this  
Same half smile that suits us for a while But don't feel despair  
'Cause everybody's walking there  
And when the last whistle blows  
Then everybody knows  
The weight is off your shoulders so let go [Chorus:]  
Now it's OK now  
The day is almost over so let's play now  
So take it off your shoulders, it's OK now  
The day is almost over so just wait  
Oh now, take it down, yeah... We find ourselves  
Like numbers in a book on a dusty shelf  
We exercise to better chase our wealth  
But if you're fine, fall in line  
I hope I'm not wasting all your precious time  
So go find yours and I'll find mine For those of you who feel like I do, then you should know, man  
What we do for a while to get what we need  
Buys time to allow us to kill this routine [Chorus:]  
Now it's OK now  
The day is almost over so let's play now  
So take it off your shoulders, it's OK now  
The day is almost over so just wait  
Oh now, take it down, yeah... Let's hold on to our edge  
Stay sharper than the system says  
Let's hold on to our edge  
Stay sharper than the system Now it's O, now it's O, now it's O  
Now it's O, now it's O, now it's O [Chorus:]  
Now it's OK now  
The day is almost over so let's play now  
So take it off your shoulders, it's OK now  
The day is almost over so just wait  
Oh now, take it down, yeah...
