

# Volcanic

## Pedro Gabriel Amaral

Volcanic seed passed away  
Without sunlight in the morning  
Erupting iron solid fiery blaze  
Blossoms it away a sign of warning  
Apocalypse has the name  
Of a certain troubled water  
It is known as the river rain, yeah yeah  
You can find a way near the border  
Why did you run away?  
You didn't try so hard  
Volcanic heart got betrayed  
Started bleeding ended fading  
By somebody whose name is burned  
A fireman of doom firefighting, firefighting
