Knockout

Project Dirty

Better show you now than to tell you twice
First you knocked me out then you won this fight
You beat the beat up like you're taking on the world tonight
I'm caught in your spotlight
Baby I'm no good at playing by the rules
But I feel dizzy when I'm next to you
You knock me down with every word and now I'm black and blue
Im acting like a foolIt's like a shot to the head, I'm falling down
Reaching for you, but I just can't make a sound
While the record's spinning, I see you winning my heart tonight
I pull you closer baby, watch me lose control
With my guard down I can't take much more
You're the reason why I can't go another round
It's a knockoutYou took the wind right out of every breath I breathe
But when i kiss your mouth, you give it back to me
Maybe tonight we'll let the DJ be the referee
Count down in 1, 2, 1, 2, 3
You got me seeing stars on a cloudy night
It's like the world is ours, it's never been so bright
No use to try, I know that I can't get you off my mind
Girl it feels so rightIt's like a shot to the head, I'm falling down
Reaching for you, but I just can't make a sound
While the record's spinning, I see you winning my heart tonight
I pull you closer baby, watch me lose control
With my guard down I can't take much more
You're the reason why I can't go another round
It's a knockoutIt's a knockout
Baby you're a knockout
Took a step in the ring
We're going toe to toe
Hit the bell, hear the ding
I better take it slow
I'm all in, let's begin
You got me on the ropes
It's getting physicalIt's like a shot to the head, I'm falling down
Reaching for you, but I just can't make a sound
While the record's spinning, I see you winning my heart tonight
I pull you closer baby, watch me lose control
With my guard down I can't take much more

You're the reason why, I can't go another round
It's a knockout
It's a knockout
Baby you're a knockout
I pull you closer baby, watch me lose control
With my guard down I can't take much more
You're the reason why, I can't go another round
It's a knockout
Baby you're a knockout
