Friends

Gentle Giant

FRIENDS
Where would I be without friends, to take good care of me,
My friends,
What would I do I would be alone
On my own.(*) Enemies, some say add spice to your life
(*) But I've always hated to be so disliked
(*) I cant see why in this short span of time
(*) Anyone does without friends.FRIENDS
Will always help when you're feeling down,
On the ground,
You're friends
Will put a shoulder to the wheel
I feel(*) REPEAT.....
