Can You Imagine

Dope Stars Inc.

We've been walking in the same situation
Try to find the world, what can I tell you
We've been walking down the lonely road
And I don't know how, and I don't know why
All my feelings that you just won't let go
But I can't stop now until I make you mine
Falling in love so tenderly
Can you imagine you and me
Can you imagine that we are one
That we are one
Every moment goes by
That you and I should be lost in love
I find another reason why
Can you imagine girl
I imagine that you are here with me
Every night goes as I lay here dreaming
I'll make it right
Have to wonder do share this feeling

Have you ever thought how we would be
If you have a doubt
Cause I can't stop now until I make you mine
I've been waiting for this perfect moment
I've been waiting I'm so lost
I gotta make you see that I need you here with me
In my arms is where you belong
Falling in love so tenderly
Can you imagine you and me
Can you imagine that we are one
Every moment goes by
That we are one
I find another reason why
That you and I should be lost in love
Can you imagine girl
Baby lost in love
