

Falling Up the Stairs

Lime Cordiale

There's stains in my sheets
And sweat but no heat
I'll hate it but I'll tryâ€”
To stop from getting high I'm falling up the stairs What day is it?
What to do next?
My feet are on the ground
I'll stick with that for now I'm falling up the stairs I can't get myself set up rightâ€”
I just wait till this green is alight
I've got to keep my lips talking on
When I do it's always so wrong My eyes don't meet eyesâ€”
Unless I hide behind a pair of sunglasses
I'll rehearse and then reviseâ€”
So I can make my own disguise I'm falling up the stairs I can't get myself set up rightâ€”
I just wait till this green is alight
I've got to keep my lips talking on
When I do it's always so wrong Oh I seeâ€”
The things to say
