

When We Come Alive

Switchfoot

Oh
Oh
Woah
WoahThe sun goes down like a photograph
You try to stop time in the aftermath
But it's gone, goneYesterday reads like a tragedy
I try not to lose what's left of me
But it's gone
Yeah, but we carry on'Cause we are fire
Burning brightly
You and IWe light the sky
When we ignite, yeah, yeah
When we come alive
When we come aliveIt feels like I could get lost today
The winds in my mind get swept away
And I'm gone, goneAnd it's one last time to the wishing well
I throw down the change and I wish them well
But they're gone
Yeah, but we'll carry on'Cause we are fire
Burning brightly
You and IWe light the sky
When we ignite, yeah, yeah
When we come alive
When we come aliveWe are souls on fire
We are reaching higher
We are souls on fire
When we come alive
When we come aliveWe are fire
You and IOh
OhWe are fire
Burning brightly
You and IWe light the sky
When we ignite, yeah, yeah
When we come alive
When we come aliveYeah when we come alive
When we come aliveStrength, heart, soul
