No More Weapons

Steel Pulse

We don't really need x 2
Yeah! No No
[David Pose]
There's no time to beat around the BUSH
Now all the world is living in fear
The consequence a great disaster zone
The thought alone I cannot bear
And now that war has raised its ugly head
And all I can predict is war yeah!
This claim for power paints the city red
I isolate the Status Quo.
[Steel Pulse]
We no want no weapons (no way) of mass destruction
We no want no weapons of mass destruction
No we no really need
No weapons, no weapons no
[David Pose]
This has got to be the final conflict
Bestowed upon humanity
So much for a global coalition
A false sense of security
We are just pawns in the scheme of things
No matter what our race or creed
Survivors of this holocaust
We international refugees
[Steel Pulse]
We no want no weapons (no way) of mass destruction
We no want no weapons of mass destruction
We no want no weapons of mass destruction
No no no lethal weapons
No no lethal weapons
No weapons no weapons
[Jr. Gong]
We don't want, no no
We don't want x 3
Ah we don't want none in the north and none in the south
And none in the west and east and not to illing the prince Of peace, lord
We don't war on them, we don't war on myself, we don't war On many disease and not to illing the prince of peace, hey

For in need of a save we
The Blood drop through time, through the fog, and it over
Only King Selassie can save we
Nation against nation the world is in need of a change, Hey
Father, I pray thee: please give a hand cause it seems Like A total destruction is the only solution
Nation against nation the world is in need of a change
[Steel Pulse]
We no want no weapons (NO) of mass destruction
We no want no weapons (no way) of mass destruction
We no want no weapons of mass destruction
[Daivd Pose]
This crave for power
Is one disaster, destruction's in the air
These ego trips, by heads of states, who giveth not a care
For the children, save the children
The future's in despair
No no no No no
We no want no weapons no
We no want no weapons no
we dont really need
We no want no weapons no
no, no, no, NO!
We no want no weapons of mass destruction
No weapons, no!
No weapons, no!
no weapons, no weapons, no weapons, no
No weapons, no!
no weapons, no weapons, no weapons, no
