

# Indivisible

## Plankeye

Avenues and dirty arches  
You run down the street and I will follow  
Try, try sliding through the network  
Of a crowded paradiseMy tears are indivisible  
Underneath overexposure  
Like a shell shocked distant past  
ride ride sifting through the remains  
Surfing on a concrete tideMy tears are indivisible  
Animals in pretty cages  
You have watched them wear their ugliest faces  
Cry, cry saline droplets  
Splashing in the boat that saved your lifeMy tears are indivisible  
When we fall we're always sorry  
But it makes us glad to know it's only temporary
