Needles And Pins

Mike PenderÂ´s Searchers

How neat, I'm impressed
How did you come to be so blessed?You're a star, you blaze
Out like a sharp machineLike a whale's moan
I'm here if that's what you wantHere we are
You're pins, I'm needles, let's play
Here we are
You want this? Then come onTune out everyone in the crowd
'Cause now it's just me and you
Come fall in love with the sound
Make a pact to each other
Got when no one's around
Put the cross between me and you
Who wants to fuck with us now?Here we are
You're pins, I'm needles, let's play
Here we are
You want this? Then come onTune out everyone in the crowd
'Cause now it's just me and you
Come fall in love with the sound
Make a pact to each other
When no one's around
God's between me and you
Who wants to fuck with us now?
Who wants to fuck with us now?
Who wants to fuck with us now?
