Nothing Special

illScarlett

I'm sick and tired of everybody
Thinkin they know what's best for me and
Maybe god wanted me to be
Nothing special.
I'm past the point of breakin and I'm
Not sure if I'm a gonna make it
I'll keep this gift from breakin
as long as you believe.

I remember walking in the park with my lover on a sunny afternoon.
I won't give up on you she said
Don't be so afraid (so afraid)
I'll maintain as long as you believe in.... me...
(Greetings from the part of me, that doesn't want to be a part of your complacency)

I'm sick and tired of everybody
Thinkin they know what's best for me and
Maybe god wanted me to be
Nothing special.
I'm past the point of breakin and I'm
Not sure if I'm a gonna make it
I'll keep this gift from breakin
as long as you believe.

This is the part of the song where I just don't give a fuck about what you want
What you heard, what you thought
I won't give up that easily
Hold me in your tenderness.
over rated, so ungreatful is me.
(Greetings from the part of me, that doean't want to be a part of this fucking machine!)

I'm sick and tired of everybody
Thinkin they know what's best for me and
Maybe god wanted me to be
Nothing special.
I'm past the point of breakin and I'm
Not sure if I'm a gonna make it
I'll keep this gift from breakin
as long as you believe.

If you belive.
Don't be afraid
If you believe.

I'm sick and tired of everybody
Thinkin they know what's best for me and
Maybe god wanted me to be
Nothing special.
I'm past the point of breakin and I'm
Not sure if I'm a gonna make it
I'll keep this gift from breakin
as long as you believe.

I'm sick and tired...
I'm sick and tired...
I'm sick and tired...
I wish I was nothing special.
