Let Them Talk

Harry Connick, Jr.

Let them talk if they want to
Baby, talk don't bother me
I want the whole wide world to know
That I really love you so
And let them whisper for they know not
What's between you and I, oh
You know I'm gonna keep on loving you
'Til the day, 'til the day that I die
They're tryin' to breakup our romance, woah
Darling they don't stand a chance
Baby, we got a kind of love that's so strong
We'll be together, together from now on
I don't gossip you know is the devil's workshop
And I know true love can make it stop, yeah
I want the whole wide world to know
That I really love you so
Oh, they're envious of everything that we do
And I wanna tell you baby, it's wonderful, yeah
When you love someone and that someone really loves you
I'm gonna tell you darling, I love you and I know you love me, oh
Well, now, well, now now, love you, oh
