[Intro]

(Swiff D)

Holy Quran

Holy Quran

Holy Quran

Holy Quran[Chorus]

They want me to change but some things just can't be rewritten

God of gods, light of light, they all true and living

Authentic like this book I hold in palm

With mercy, embrace all things, (through this) Holy Quran

Ho-Holy Quran

Holy Quran

Holy Quran

Ho-Holy Quran

[Verse 1]

They want me to change, want me in reins

Locked up in cage, head full of rage

It's insane, the percentage of my niggas that's gone

And all my niggas that's home, hold your head and stay strong

What's hatnin' in the White House got my black thoughts runnin'

Deeply rooted in this evil, I'm tryna crop out somethin'

And plant these good seeds of mine, hope they see the signs

Why my people dyin' on Vine, swear that Facebook live

Desensitized by murder, murder, bloody murder

Likes and retweets don't help in hands, just all observers

Hype converters, wave surfers, they don't serve no purpose

Government at the service, God save us, we out here livin' worthless

[Chorus]

They want me to change but some things just can't be rewritten

God of gods, light of light, they all true and living

Authentic like this book I hold in palm

With mercy, embrace all things, (through this) Holy Quran

Ho-Holy Quran

Holy Quran

Holy Quran

Ho-Holy Quran[Verse 2]

They tryna crucify me for my originality

They say a man's worth depends on salary

But what's money but selfish ways and no one's proud of me

The ugly truth, got fat pockets and high calories
A gluttonous approach, with a selfish mentality
The wicked ways of sin, I be fightin' all these Jinns
Fake friends, backstabbers, they be knifin' at my skin
I rose from the ghetto without a thorn in my stem
I'm written and unbothered, completely who I'm 'posed to be
Comfortable in my own skin, even if no one notice me
But notably, I'm known as King, someone who control this dream
And broke free of every iron hand that had a hold on me[Chorus]
They want me to change but some things just can't be rewritten
God of gods, light of light, they all true and living
Authentic like this book I hold in palm
With mercy, embrace all things, (through this) Holy Quran
Ho-Holy Quran
Holy Quran
Holy Quran
Ho-Holy Quran
