

Dive

Bauhaus

We're going down
We're going down
We're going down
To the kamikaze dive
Pussy Galore
Fishnet leatherette
Psuedo sumo wrestler
Dangerous dances
The dragons claw
On the door
K-Tel oriental
The monkey's paw.

You're a dead ringer for Madame Butterfly
You're so necromantic
Stitch my thigh
Mixing molotov cocktails
Snappy little fingers
Venomous and vain
In the subterrain

We're going down to the kamikazi dive
Like insects in a Chinese lantern now
We're feeling so alive, what's showing?
We're going down to the kamikazi dive.

We're feeling so alive, what's showing Like manic moths in Chinese lanterns now
