

When The Faction's Fractioned

Biffy Clyro

Today's a blur, little baby
Been up for days Waking up
Waking up Devised a plan, little darling
To split the sky Fade away
Fade away The time is running out
The time is running out We'll fade away little baby
Make no mistake
To half as much, half as much Hmm! Ahh! Fffp!
Bup! Woo! Heh! The time is running out
The time is running
The water's running out
The water's running
The girl is running out
The girl is running
The girl is running out
The girl We can leave this faction and start our own
No-one will take it over, no-one
We can leave this faction and start our own
No-one will take it over, no-one Start our own
Start our own
Start our own
Start our own
And show them backward to the sea
