

Rainbow Drive

Blaque

[Brandi]

People all over the world

Let's come together

We need some unity and peace among one another

Here's what you do (drive)

Just to let you feel (to)

Release your fears and bring your mind to my point of view

1 - Let's get to Rainbow Drive

Everybody come together and just feel the vibe

Let's get to Rainbow Drive

Come let's go together on Rainbow Drive

2 - Let's get to Rainbow Drive

You don't need no money, it's a natural high

Gotta get to Rainbow Drive

Forget about your worries, it's gon' be all right

[Shamari]

Love and peace on Earth

We've gotta make it work

If we come together, I promise it'll be worth

The ride, new heights we'll climb

Our time is too short

We've gotta live our lives

Repeat 1

We've got to live together

(We gotta live together, we gotta come together)

When we do one unto the others we pay

My dreams of life you gotta understand (Ha, remember that)

(We gotta live together, we gotta come together)

Might change your life when you understand

That you're only a shade away

Get to Rainbow Drive (let's go)

Repeat 1

Repeat 2

Repeat 1

Repeat 2

Repeat 1
