

# (Dont You Mess Around With) My Little Sister

**Michelle Shocked**

Well, she's a rocker, she take after me  
She's a roller, rollin' a the family  
She's a rock 'n roll baby, a real gone twisterBut I'm tellin' you mister, don't you mess around  
With my little sister, no, no, noI don't know you but I know your kind  
I know I'm right 'cause I can read your mind  
Well, I know you think you can't resist herBut I'm tellin' you mister, don't you mess around  
With my little sister, no, no, noI promised the folks, I would not keep her out late  
Because she's too young to party, too young to date  
Oh, you take your hands off her, find yourself another  
Or you're gonna have to answer to this big brother, now, now, nowAnd now, I tell you, I ain't had fun all night  
'Cause all you fellas keep tryin' to treat her right  
Well, she may blow your mind like an old transistorBut I'm tellin' you mister, don't you mess around  
With my little sister, no, no, noI promised the folks, I would not keep her out late  
Because she's too young to party, too young to date  
Oh, you take your hands off her, find yourself another  
Or you're gonna have to answer to this big brother, now, now, nowI said, don't you mess around, don't you  
mess around  
Don't you mess around, don't you mess around  
Oh, don't you mess around with, don't you mess around with  
Don't you mess around with my little sister, no
