

Cypress Hill

Settle down bitch while we skip that medal Remember when you motherfuckers
Tried to take what's mine

Nigga's left me for dead
But i'll never forget
(bang bang)
Payback!
(bang bang)
Payback!
(bang bang)
Payback!
(bang bang)I came up in the game doin' my thang for the flava
Never thought game gang, bangin' on the haters
They used to gangbang on the corner black came out
Drop on the world was a big flame out
I remember when you niggas used to front on me
Everywhere I ride kept the gun on me
I only used to listen to my one OG,
He said get money but stay low key
So its a payback, with pain in the back
The whole world gettin' high
When I say it on the track
And I say it with a gap
To hit em up with
All it takes is one hit and you never forget
Smoke ont he Hill
Wanna kill the whole spliff
Fuckin' shot we takin' the whole thing
Remember we don't missRemember when you motherfuckers
Tried to take what's mine
Nigga's left me for dead
But i'll never forget
(bang bang)
Payback!
(bang bang)
Payback!
(bang bang)
Payback!
