

# Eridan Falls

## Drakkar

[M: Beretta/L: Beretta, Cappellari]"War!" is the word on all lips after a century of peace  
Fires burnin' into the night, soon clouds will cover the sky

[Bridge 1:]

We stand together now to face the evil hordes  
Marching united, we're drawing our swords

[Chorus:]

This is our vow

We'll never bow

Maybe we're all gonna die...

But we fight!

Death is what you see on the ground, look at the fields around  
Screams are the only sound, crossing the shields we shout

[Bridge 2:]

We're still together but we're fallin' one by one  
A god is on their side, our power's not enough

[Chorus]

Silence is fallin' around, covers the land like a shroud  
Too quickly Eridan falls, we're not so strong or so bold... Now

[Bridge 3:]

We stood together, knowing not it was in vain  
So many warriors have died along the way

[Chorus:]

This was our vow

We'll never bow

Maybe we're all gonna die...
